GUIDANCE FOR DETERMINING UTILITY ALLOWANCES

UA analysis submission requirements will depend on the anniversary date of your contract:

- If your property's contract anniversary is **before December 20, 2015**, you may choose to implement the new methodology *or* you may use the current methodology.
- If your property's contract anniversary is **December 20, 2015 or later**, you **MUST** submit a Baseline Utility Analysis using the new methodology outlined in [HUD Notice 2015-04](#).

Current Methodology

There have been questions raised by all of San Francisco Hub PBCAs and Hub Asset Management staff on how to implement both the [Carol Galante](#) and [Tom Azumbrado](#) policy memos regarding the Owner/Agent (O/A) submittal of the Utility Allowance (UA) Analysis and review and approval of the UA by HUD/PBCA. Following are key requirements in both the policy memos:

- The O/A must submit to the PBCA a UA Analysis with Rent Adjustment and Contract Renewal packages regardless of the increase, decrease, or no change in the amount for each unit type.
- At any time the recently approved UA increases by 10% or more due to increase in utility rates, the O/A must submit to the PBCA a request to adjust the UA. This request for adjustment does not have to be concurrent with the annual Rent Adjustment cycle or Contract Renewal submittal.
- If the O/A determines there should be a decrease in the UA, the O/A must notify the tenants in writing at least 30 days prior to submitting the request to the PBCA for approval and must provide the tenants with the right to participate in and comment on the proposed decrease in the UA. The written tenant notification must be included in the UA Analysis submittal.
- The approved decrease in the UA *can* go lower than the UA levels originally set in the HAP contract per result of the analysis.
- The O/A's best estimate of average monthly utility cost that an energy-conscious tenant will incur for the year can be better achieved by the PBCA recognizing anomalies in the O/A's UA Analysis such as unusually high or low utility consumption (high and low spikes) for each unit type. The PBCA must instruct the O/A's not to consider those high and low spikes in its analysis. If the high and low spikes are present in the analysis submitted by the O/A, the PBCA must not include those spikes in determining the

approvable UA levels.

- If only 3 are looked at, the high/low spikes may not be apparent, but the O/A should not be submitting supporting documentation from the same residents each year.
- The Tom Azumbrado policy memo limits the number of supporting documentation to the UA Analysis to be submitted by the O/A, which is 10% of all unit types and from the minimum of three (3) to a maximum of twenty (20). The standard practice in requiring supporting documentation should be based on the 10% of all unit types; and
- A minimum of three (3) supporting documentation should only be used in recognizing the O/A's best effort and verifiable hardship in acquiring the supporting documentation.
- On small properties where the 10% of all unit types result in just three supporting documentation, the PBCA must strive to not allow the O/A to submit the same supporting documentation from the same residents in every submittal. This is consistent with the intent of determining the average utility consumption from energy-conscious residents. This cannot be ascertained unless supporting documentation is received from other residents. However, the PBCA will be sensitive to the O/A's dilemma and hardship in getting cooperation from both the Utility Company and the residents and will exercise good judgment.

The UA levels will be based on the PBCA's analysis of the O/A's submittal and cannot be left at the current level if the analysis results in a change of less than 10%. If there is even a \$1 change in UA based on the analysis, the change will proceed.

New Methodology (Reminder: If your property's contract anniversary is before 12/20/15, you may choose to implement the new methodology or you may use the current methodology).

New UA guidance outlined in [HUD Notice 2015-04](#) instructs owner/agents to establish a baseline for each bedroom size **once every three years**. For two years after the baseline submission, utility allowances for each bedroom size and each utility type at the property will be adjusted by a state-specific increase factor called a Utility Adjustment Factor (UAF). These factors will be published annually by HUD.

Baseline Submission Requirements

1. Request utility data from either the utility company or the tenant household for at least the number of units determined by the sample size methodology detailed below.
 - a. This must be done for each bedroom size at the property;
 - b. If the property consists of multiple identical buildings (or buildings that are substantially similar, then the sampling may be performed at the property level,

- c. encompassing all buildings on a site. If buildings are not identical, the sampling must be done for each bedroom size);
- d. If the analysis is performed by a third party or the utility provider, the sample size data/bills must be submitted;
- e. The data collected must be for the same time frame;
- f. The data used must not be more than eighteen (18) months from the contract anniversary date;
- g. Samples submitted must be from units receiving Section 8 assistance;
- h. A unit should be excluded from the sample if it:
 - i. Is receiving an increased UA as a reasonable accommodation;
 - ii. Has been vacant for 2 or more months. Units included in the sample should have at least 10 months of occupancy; or
 - iii. Is receiving a flat utility rate as part of a low-income rate assistance utility program.

NOTE: RHS/USDA Properties must comply with the requirements outlined in HUD Notice 2015-04.

Number of Units	Minimum Sample
1 – 20	All
21 – 61	20
62 – 71	21
72 – 83	22
84 – 99	23
100 – 120	24
121 – 149	25
150 – 191	26
192 – 259	27
260 – 388	28
389 and above	29

1. Determine the average utility cost for each bedroom size without removing any units from the sample size beyond those excluded as indicated in (G.) above. Do **not** remove the highest and/or lowest utility cost household when determining the average. The monthly cost of consumption is the NET COST *after* the application of discounts (e.g. California Climate Credit, Solar Discount, surcharges, transmission fees, etc.). Do **not** include late fees in the monthly cost of consumption.
 - a. A sample format for utility allowance submissions, which includes built-in formulas to average utility costs for each unit size, can be found [here](#).
 - b. A sample tenant release form can be found [here](#)
2. Provide an explanation for any sample sizes that do not meet the required criteria established in [Notice 2015-04](#).
3. Recommend the UA amount to the contract administrator for approval.
4. Follow the requirements in 24 CFR Part 245.405(a) and 245.410 to notify tenants of a utility allowance decrease
5. Phase-in UA decreases that would exceed 15% AND \$10 from the most recent (approved) UA.
 - a. The phase-in applies only to decreases resulting from the *initial* baseline analysis. Refer to [HUD Notice 2015-04](#) for additional information on phase-in requirements.

Factor-Based Analysis

For the two years after a baseline utility analysis is completed, the UA amounts for each bedroom size and each utility type can be adjusted by the established Utility Allowance Factor (UAF) in lieu of a baseline utility allowance.

After completing the property's utility analysis under the factor-based utility analysis method, O/As should compare the adjusted utility analysis to their paid utilities over the previous twelve months. If the results indicate a significant disparity between the two, the O/A should complete a baseline analysis to help ensure the allowance(s) provided are accurate.

When the factor-based method is used to determine UAs, the O/A should submit their recommendation for the UA amount to the contract administrator for approval.

Projects Preparing A Budget-Based Rent Increase

Guidance for preparing a budget-based rent increase may be found in Chapter 7 of HUD Handbook 4350.1, REV-1. Projects that have not previously prepared or submitted a budget based increase should carefully follow these instructions. The basic components to be included are listed in Chapter 7, paragraph 7-22.

Allowance for Owner Distribution For Profit Motivated Projects that Have Not Previously Submitted a Budget Based Rent Increase.

Projects falling under this category may factor in an allowance for owner return/distribution as follows:

- For **Section 515/8** projects (regardless of whether they are for the elderly or families), 8% of the initial Owner equity.
- For all other projects:
 - ⇒ **Elderly**, 6% of the initial owner equity.
 - ⇒ **Families**, 10% of the initial owner equity.

To determine initial owner equity, the owner(s) should refer to the Maximum Insurable Mortgage Form (FHA 2580/HUD 92580). If the project was not insured or the HUD 92580 is not available, the Owner(s) must certify as to the amount of the initial equity and provide supporting documentation.

For Section 515/8 projects:

$$\frac{\text{Initial Owner Equity}}{\text{Return/Distribution}} \times .08 = \frac{\text{Allowance for Owner}}{\text{Return/Distribution}}$$

For Elderly Projects:

$$\frac{\text{Initial Owner Equity}}{\text{Return/Distribution}} \times .06 = \frac{\text{Allowance for Owner}}{\text{Return/Distribution}}$$

Return/Distribution

For Family Projects:

$$\frac{\text{Initial Owner Equity}}{\text{Return/Distribution}} \times .10 = \frac{\text{Allowance for Owner}}{\text{Return/Distribution}}$$

I hereby certify that this accurately reflects the initial Owner equity in the project as of the date the project initially entered into a Section 8 contract.

Owner(s) Signature

Date

The allowance for Owner Return/Distribution should be factored into the Rent Computation Worksheet (Appendix 5, Chapter 7 of the 4350.1) in Box C, "Return/Net Income Reserve."

Instructions: Indicate the Fund for the request and provide the information for each section as requested. Owners/Agents must also submit the following with this form:

- (1) A narrative providing a detailed description of the work performed or to be performed;
- (2) Copies of paid invoices if the withdrawal request is for reimbursement for work that has been performed;
- (3) If a bid exceeds \$25,000 than copies of bids may required. Please refer to HUD Handbook 4350.1 Chapter detailed guidance;
- (4) Mortgagor Certification (refer to HUD Handbook 4350.1, REV-1); and,
- (5) A list of appliances and/or major components that will be replaced along with a notation of whether or not the replacement items will be energy efficient products. If replacement items are not energy efficient products, the owner/agent must provide a justification.

Public reporting burden for this collection is estimated to average 30 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining data needed, and completing and reviewing the collection of information. This information is required to obtain is required to obtain benefits. HUD may not collect this information, and you are not required to complete this form, unless it displays a currently valid OMB control number.

The regulations at 24 CFR Part 880.601 and 24 CFR Part 880.602 authorizes the Secretary of the Department of Housing and Urban Development to effectively monitor withdrawals from the Reserve for Replacements and/or Residual Receipts Funds. This information collection sets forth the information that must be reviewed and approved by HUD in order to withdraw funds from these accounts.
